

# TN y la gente - Workflow

## Step 1 - Upload content to AWS S3 Bucket

Check this documentation: <https://docs.aws.amazon.com/AmazonS3/latest/API/bucket-policy-s3-sigv4-conditions.html>

Important: Ask for credentials and source bucket.

## Step 2 - List content from S3 Bucket

Genoa API endpoint: <https://doc.vodgc.net/books/tn-y-la-gente-v3/page/tn-y-la-gente#bkmrk-change-youtube-conte>

Important: Ask for credentials and source bucket.

## Step 3 - Select content and process in Genoa

Genoa API endpoint: <https://doc.vodgc.net/books/tn-y-la-gente-v3/page/tn-y-la-gente#bkmrk-send-to-genoa-conten>

## Step 4 - UNE (Upload Notification Endpoint)

This is a webhook to be notified when the content was processed correctly.

<https://doc.vodgc.net/books/api/page/api-v1#bkmrk-une-%28upload-notifica>

## Step 5 - List TN y La Gente Category

Genoa API endpoint: <https://doc.vodgc.net/books/genoa-api-v3/page/categories#bkmrk-get-content-in-a-cat>
